Your Child’s Success

Your involvement is extremely important in your child or youth’s success, and we invite you to participate in regular home sessions, team meetings and quarterly reviews of progress.

Get Started

Your child or adolescent can be referred by your family, school, social service agency, mental health provider or other natural support. Please contact us to schedule an initial evaluation and to complete the referral.

Serving Lancaster, Lebanon, Dauphin and Cumberland counties

WellSpan Philhaven is south central Pennsylvania’s most comprehensive behavioral health organization, serving Adams, Dauphin, Lancaster, Lebanon and York counties through 54 programs and 27 care locations. For 65 years, we have focused on treating the whole person – mind, body and soul. We offer services for all ages and various levels of care, including hospitalization, residential and day programs, outpatient counseling, and services in the home, school and community. WellSpan Philhaven is part of WellSpan Health, an integrated health system serving the region with more than 1,200 physicians and advanced practice clinicians, six respected hospitals, 15,000 employees and more than 130 care locations.
Your WellSpan Philhaven Experience

We believe that each child is unique and special and needs a positive and encouraging environment to thrive. At WellSpan Philhaven, we also desire that all children and adolescents have the opportunity to discover what hope, healing and wholeness can mean to them.

The Behavioral Health Rehabilitation Service (BHRS) is a medically prescribed and individualized mental health service delivered in the home, school and community. These services are supportive, time-limited, one-to-one planned behavioral health interventions. They involve both student and family, as directed by a treatment plan. We serve children with a mental health diagnosis who are between the ages of 3 and 21.

Our Outcomes

Through the program, we will encourage children to improve skills such as:
- Anger Management
- Coping Skills
- Impulse Control
- Problem Solving
- Self Esteem
- Feeling Identification
- Decision Making
- Emotional Regulation
- Social Interaction
- Creative Expression

The Team Approach

A treatment plan is developed for your child or adolescent in conjunction with your family, caregivers, school staff and other natural support team members. There may be various staff assigned to your child’s treatment plan:

Behavioral Specialist Consultant (BSC)
Master’s level clinician who works with the home and school team to design and direct a Positive Behavioral Support Plan. This role could include writing a Functional Behavioral Assessment (FBA), collecting and analyzing data, and consulting with all team members in order to implement an effective plan.

Mobile Therapist (MT)
Master’s level clinician working primarily in the home setting by providing individual and family therapy in collaboration with team members. The MT utilizes family strengths to promote independence and works closely with family to drive treatment goals, interventions, progress and discharge planning.

Therapeutic Staff Support (TSS)
This specialist provides one-to-one behavioral support and therapeutic interventions as outlined in the treatment plan and may work in the home, school or community setting. The TSS also works closely with team members in a collaborative role to problem solve and to transfer skills to the natural support setting.
