Developmental Guidance Service

What is it?

- Developmental Guidance Service is designed to support clients and families throughout their lifespan and is based on the Health Home Model.
- The service involves two appointments per year with a CADD outpatient therapist.
- Only CADD staff members can refer clients to this service.
- Each session will last approximately 45-60 minutes.

What will occur during session?

- Important areas of functioning and development will be reviewed, highlighting progress or struggles:
  - Developmental Milestones
  - Social Interactions/Play
  - Problematic Behaviors
  - Activities of Daily Living
  - Education
  - Family
  - Health
  - Transition
  - Employment
  - Comorbid Mental Health/Substance Use Disorder
  - Community Supports
  - Aging

- You will be provided with supportive materials or resources as appropriate and a detailed summary of appointment and agreed upon next steps.

Continued on reverse side.
